The Rainbow Snakes – Golden Love

Newcomers "The Rainbow Snakes" 3rd release Golden Love is a tale of racial equality and acceptance in times of transformation

Set-in inner-city Cairns FNQ "Golden Love" is a tale of coming to terms with the systemic nature of racial discrimination and finding our way through. Racial inequality unbeknown to most has been ingrained into our psyches for centuries, Darwin, Einstein, Pyke, Blavatsky spoke of racial superiority, even parts of the Bible condone slavery, today survival of the fittest has been debunked as we strive for a community and cooperative approach. We are in a huge transitional stage of humanity where we as individuals are challenging the narratives and coming together as one humanity finding our "Golden Love".
