Justin Landers – Be A Little Kinder

Be A Little Kinder is the third single selected for early release from Justin's upcoming album currently being produced and recorded with the tremendously talented Simon Johnson of Hillbilly Hut Records.

Be A Little Kinder is a wholehearted country ballad that asks listeners to question their own mortality and actions and, to consider being a little kinder and wiser and to show a little more love and compassion for one another.

Written during the height of the COVID-19 lockdown, Be A Little Kinder was inspired by the current climate and events happening around the world. "At the moment, I feel there is a lot of loss, division and confusion going on in the world on various issues and I just wanted to say to people that these are tough times, be a little kinder while we work through this" said Justin.

Be A Little Kinder is available for pre-order on iTunes from 24th August 2020 and purchase in digital format globally from all Digital Media Stores including; iTunes®, Google Play®, Apple Music®, Spotify® and many other stores, from 4th September 2020.
