Mark Lavender - Strong Man

“Known for his love of Country Music, Mark Lavender has tailored his path as a performing musician, song writer and multi instrumentalists”

Mark is no stranger to the stage or the music industry. A Bundaberg household name and one of Bundaberg’s favourite musicians, Mark is known for his ability to entertain his crowds with his massive genre and performance range to suit each crowd and venue.

Mark's new single "Strong Man" was written by Mark and his wife Kathryn Lavender, about a close friend and their personal fight and strength through cancer. The effects it has on a person, their family and the people around them and the will to fight and go on.

Strong Man, was recorded in Nashville TN on our last visit by Buddy Hyatt (producer, ex member of TOTO), featuring Brent Mason (Nashville's biggest name on guitar, featuring on Alan Jackson, Brooks and Dunn, George Strait to name a few artists albums).

A powerful message in song, effecting more than just cancer victims, but anyone who has had to fight and rise above.

Mark has created a massive following of country music lovers and has performed along Travis Collins, Wolfe Brothers, Catherine Britt, Bill Chambers and more.
