### ***Adam James – Love We Lost***

Best known in Australia for his impressive debut on the country music scene, James has taken a recent stylistic shift and unleashed his inner blues. His third studio album signals the transformation of Adam James into a bluesman, sophisticated storyteller and a pioneering indigenous artist with very few peers.

A singer, songwriter and dynamic live performer, James has gained a reputation as a favourite on big festival stages as well as intimate gigs thanks to his melodious voice and effortless on-stage appeal.

‘Love We Lost’ is the first single to come from Adam’s forthcoming album recorded in Nashville studio The Sound Emporium. James has connected with long-time producer Stueie French, and has utilised a backing band of local greats whose veins bleed the blues. He filmed his music video to boot in New York City.
