Charlie's Attic – Nanna's House

Nanna's House is the new single by Americana/alt Country duo Charlie's Attic.

The first release since their 2017 album, Always Near, Nanna's House is a very personal reflection of childhood, and the times Cheree (Charlie's Attic singer and lyricist) spent with her family at Nanna's House, once the watering hole of local shearers.

According to Cheree 'the song is really about childhood memories and family bonds and great times growing up in the country in a much simpler world when it was enough to spend your days 'playing in the sun' or 'throwing' a saddle on a log'.

Nanna's House is a rollicking celebration of country life and its simple pleasures and the history that binds generations.
