Warren Kearney – Just One Damn Thing After The Other

Due to the success of his recent single releases, Warren has decided to release another song titled “Just One Damn Thing After The Other” with Lyrics by Warren Kearney Music Composed by Warren Kearney and Video by Mandy Kearney.

“Just One Damn Thing After The Other” is a light hearted look at a very real problem, not only in our district of the Darling Downs, but across many parts of Australia. Here on the Darling Downs, farmers haven’t received decent rainfall now for approximately ten years. Add to that mice plagues, locusts and other bugs and the unforgiving weather, it brings farmers to the point where they make the statement “Just One Damn Thing After The Other”. Even though the song has been done in a humorous way, Warren knows that this problem is very real.

The vocals, harmonies and all instrumentation have been done by Warren Kearney.
