Justin Landers - I Can't Drink You Off My Mind

Written by Justin Landers and Recorded & Produced by Simon Johnson at Hillbilly Hut Records, 'I Can't Drink You Off My Mind' is a catchy, upbeat, Honky-Tonk style country song about a stubborn man who unsuccessfully tries to drown the sorrow of losing his partner over an argument.

"I got the inspiration for this song while performing a live show at a pub one night" Justin recalled. "There was a guy who was blind, rotten, drunk who was annoying the bar staff over being refused service because he had too much to drink. During a break, I thought I might distract him for a moment. so, I asked him how he was going. He proceeded to tell me the story of his break up with his long-time girlfriend and that he was out drinking to try and forget her. I always wanted to write a drinking song and, at that moment, I knew I had the hook to write one". Justin said.

'I Can't Drink you Off My mind' is the 4th single release from Justin's album, Free Time And Money. Available from all digital media stores and on CD from www.justinlandersmusic.com from the 19th June 2021.
