Ronnie & Johnny - Second Chance

This song is about how Ronnie and Johnny met through a music club and came together really by happenstance. Is it serendipity if you are just in the right place at the right time?

The song describes having found the right partner later in life and their plans to keep on playing. Neither of them set out looking for a new relationship but are very glad they have found it and been able to develop their music together.

It's really a love song but also a promise of commitment.

They really feel they have been given a second chance for happiness.
