### ***Amy Ryan - Heartstrings***

Heartstrings is Amy's second song to be released and will soon be part of her Debut EP. The song is inspired from the relationship Amy has with her mother. It's about some fond memories and good times that they have shared together. Amy and her family love to travel places within Australia and her mother is not always with her on some of these adventures. Amy sings of times when this occurs and shows that even though they are apart she is safe, strong and free. Co-written at the CMAA junior Academy in 2021 with mentor Ashleigh Dallas and produced by Moko Productions.
