Watling & Bates – Sat In The Car And Remembered

Sat In The Car And Remembered is a road trip back in time across the Australian continent, reprised in memory from a parked car in a faded country town.

Those who have crossed the Nullarbor by road will remember the iconic South Australian and Western Australian towns mentioned between Melbourne and Perth. Those who haven't yet made the trip may recall similar journeys taken during an adventurous youth.

Songwriter Geoff Bates (vocals, guitar) knows the road well. Kym Watling packs bass, banjo, fiddle, and harmonies, while producer Thor Phillips secures the running gear and applies a delicate shimmer of Dobro.

Recorded at Thor Phillips' Ridgeline Studio in Horse Station Creek Kyogle, NSW, and mastered by Paul Blakey, 12th & Vine Post, Broadbeach Qld.

Sat In The Car And Remembered is the final single from the Small Town Tales album.
